

Directional Mine M-14

Terram**il**

- Penetration 50 mm steel from at least 50 m distance
- Compact, easy to install and use
- 1.7 kg HE
- IM available

Directional Mine M-14

- PBX, (80% RDX)
- PETN 84%

- PBX (40% RDX)
- Comp B

Directional Mine M-14

Terram**il** 

1. Mine (8 pcs)
2. Diopter sight (8 pcs)
3. STIS shocktube integrated system (8 pcs)
4. Tripod (5 pcs)
5. Tripod leg (15 pcs)
6. Wall mount (3 pcs)
7. Adapter (5 pcs)
8. Nonel adapter (4 pcs)
9. L-screw (3 pcs)
10. Strap (3 pcs)

Directional mine M-14 – clearing charge

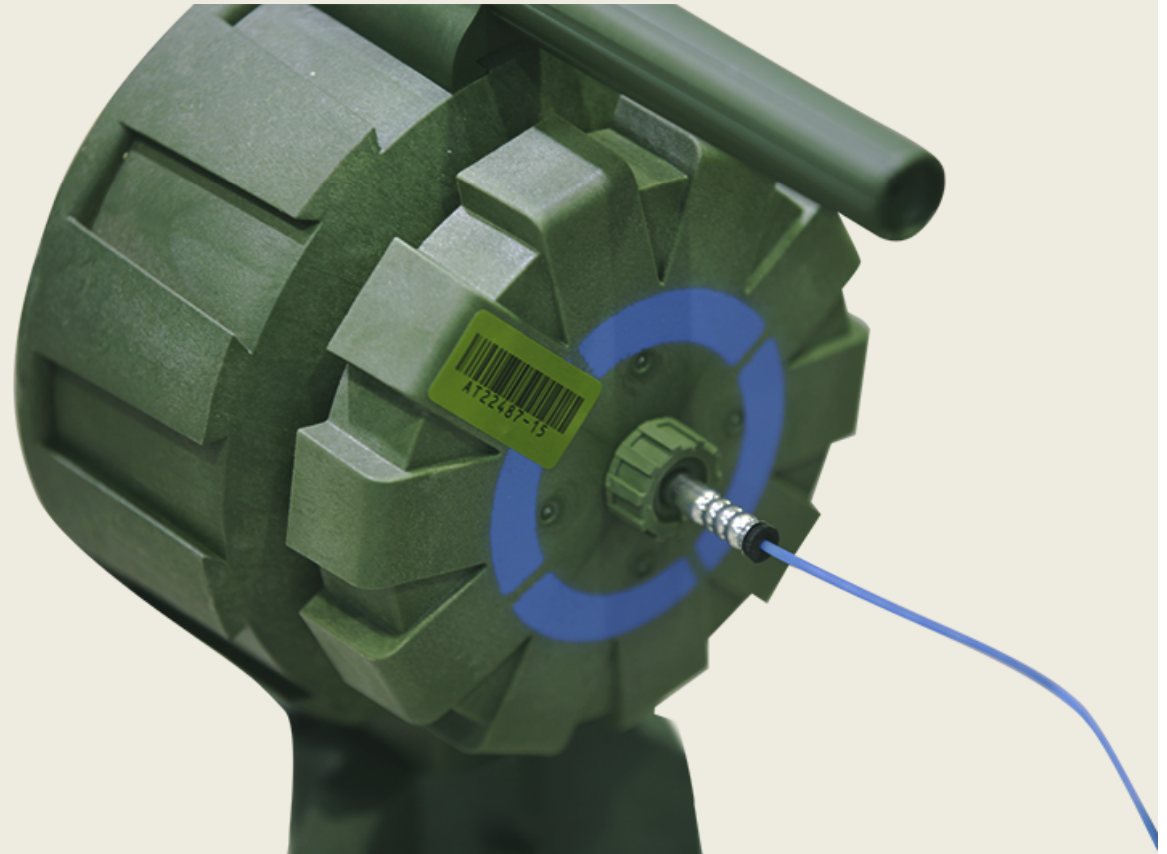

Set of accessories for in-road installation (direction of the attack from below the vehicle)

Directional Mine M-14T

Inert mine for installation training

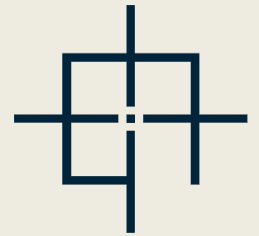

Directional Mine M-14TE

Terram**il** 

Directional Mine M-14TE

Terram**il**

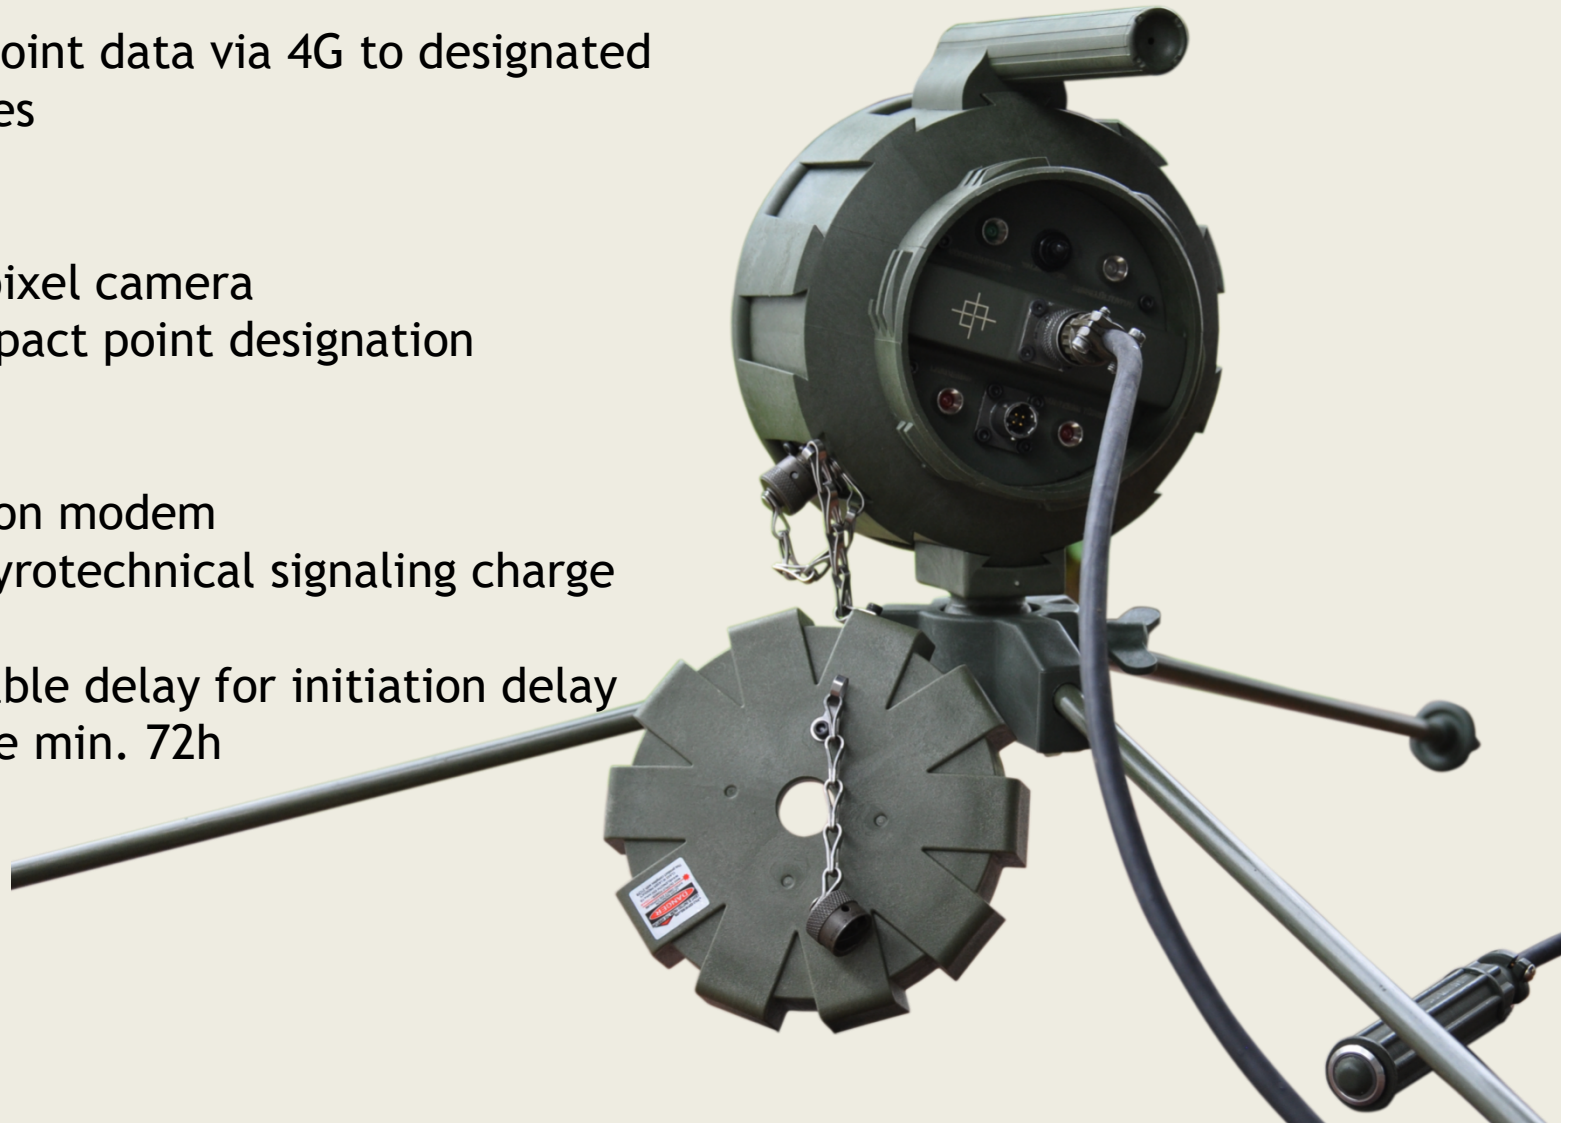

Cost effective device for moving target training

Sends impact point data via 4G to designated e-mail addresses

Technical data:

- 2592x1944 pixel camera
- Laser for impact point designation
- Flashlight
- GPS
- 4G connection modem
- Outlet for pyrotechnical signaling charge initiation
- Programmable delay for initiation delay
- Standby time min. 72h

Directional Mine PK-14TE

Coming next year !!!

Directional fragmentation charge M-13

Operation temperatures: -50C up to +50C

Fragments: 1200 round steel pellets

Lethal range: 200m in 60deg. arc

Explosive: 12kg HE, IM available

Coming next year !!!
Directional fragmentation charge M-12

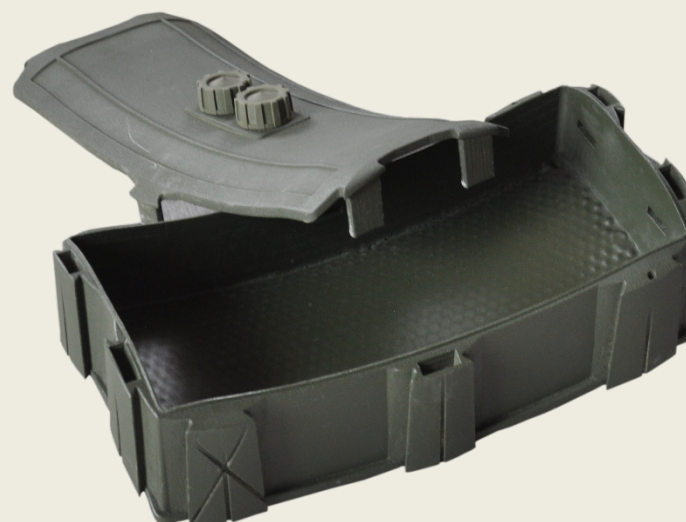

Operation temperatures: -50C up to +50C

Fragments: 870 round steel pellets

Lethal range: 60deg. arc at 50m

Explosive: 1,5kg HE, IM available

Coming next year !!!

Directional fragmentation charge M-11

Operation temperatures: -50C up to +50C

Fragments: 296 round steel pellets

Lethal range: 60deg. arc at 50m

Explosive: 0,3kg HE, IM available

81 mm Training Mortar Shell Set

Inert projectile 81 mm steel body

Replaceable steel fin assembly

Projectile body reusable min 500 cycles

Fin assembly reusable average 100 cycles (sand, gravel)

Six projectiles in wooden transportation box

Practice fuse M-29

12 fuses in wooden box

Propellant cartridge M-21

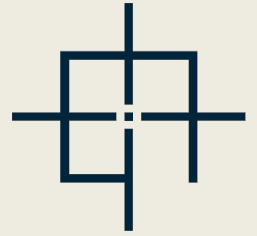

Compatible with M-22 and many others 81 mm practice projectiles

24 pcs in a cardboard or wooden box

M29 training fuse for 81mm mortar

Terram**il**

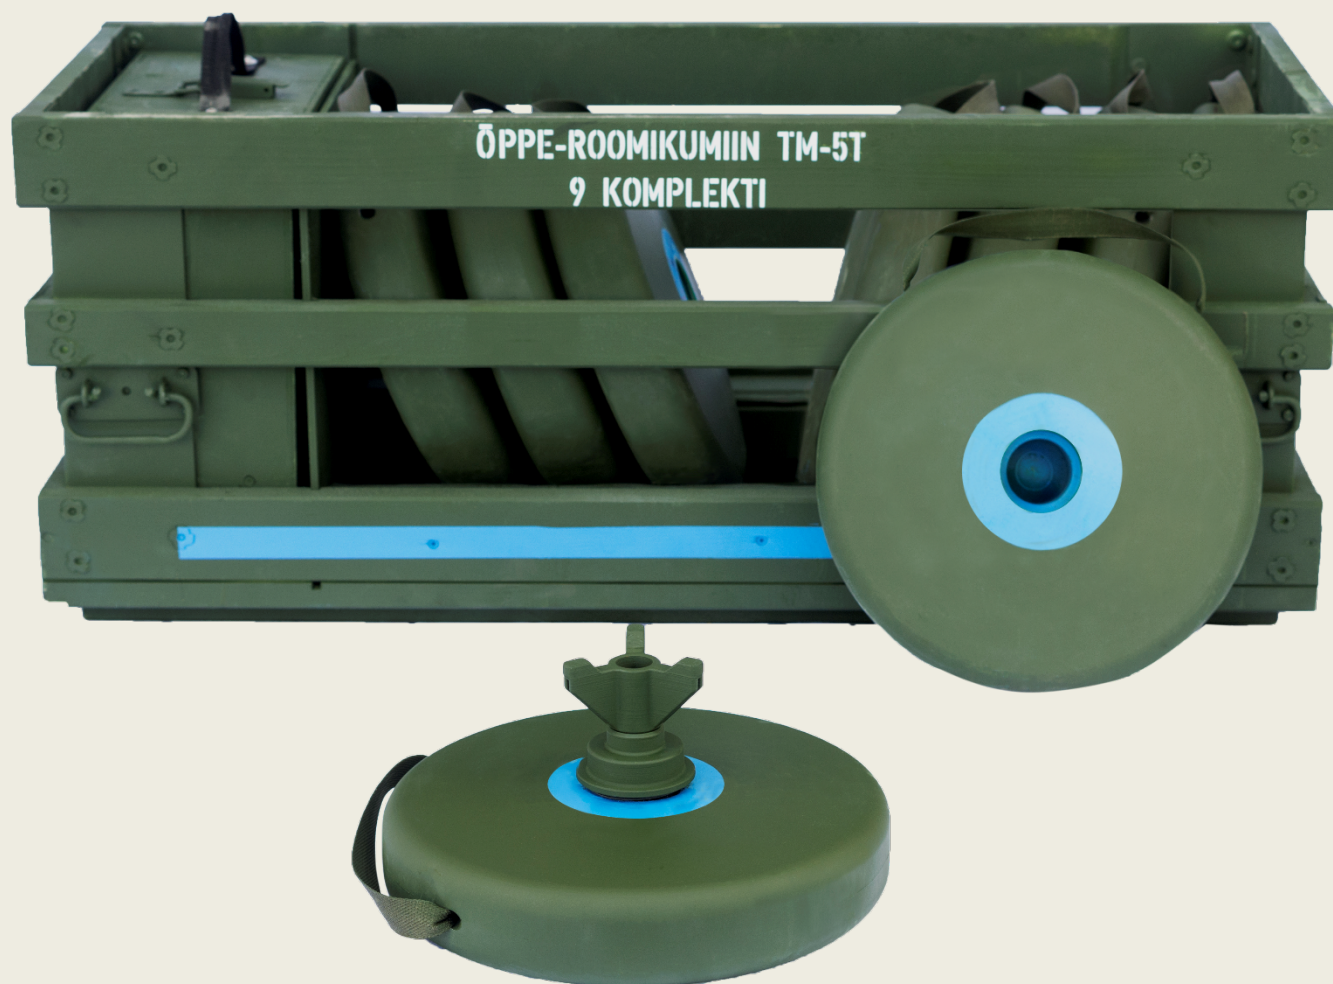

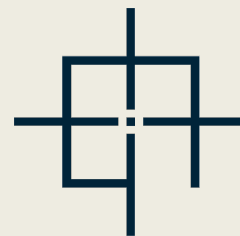

TM-52T

Terramil 

TM-5T

Terram**il**

Fascine (can handle 70t. pressure)

BOMBSHELTER

The bomb shelter – the design

Other products – Firing nests

Other products – Storage container
